

NEW IMPLEMENTATION OF RULE 10 (F)

1. Any team in any **RESERVE DIVISION** that fails to fulfil a fixture due to having insufficient players available, will have 3 points deducted from their record and 3 points added to their opponents record. These matches will not be replayed.
2. Any team in any **SENIOR DIVISION** that fails to fulfil a fixture due to having insufficient players available, will have 3 points deducted from their record and in the first instance the match will be re-arranged
3. If any **re-arranged match** is not played due to one of the teams failing to fulfil the fixture due to having insufficient players available, the offending team will have 3 points deducted from their record but the match will not be re-arranged again.
4. If the same team has failed to fulfil the fixture due to having insufficient players available on two occasions, 3 points will also be awarded to their opponents.
5. In the event that one team fails to fulfil the first fixture due to having insufficient players available and their opponents fail to fulfil the second fixture due to having insufficient players available, whilst both teams will have 3 points deducted from their record, no points will be awarded for the match which will be recorded as a 0 – 0 draw with a further 1 point being deducted from each team so that the 1 point they would each get for a draw is not reflected in the League Table.
